Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 19-22 are rejected under 35 U.S.C. 102(e) as being anticipated by Yu et al (2004/0257792).

3. Yu discloses a back light apparatus, having a frame creating a container (110) a light source module which is placed inside said container (130,150) a diffuser which is placed upon said light source (140) module; at least one elastic device placed inside said container (120), said elastic device (111) having a first end fixed on a bottom of said container (111, Fig 4a) and a second end supporting said diffuser; and a protruding device formed on top of said elastic device (120).

- Wherein said protruding device is formed out of highly reflective material (a white material).
- Wherein said protruding device is formed out of a transparent material (pp1, col. 2 Para. 0017).

Art Unit: 2875

- Wherein said protruding device is formed out of elastic material (the device of Yu deforms to resiliently accommodate the light bulb and support the diffuser, thus inherently being formed of an elastic material).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 23 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yu et al as applied to claim 19 above, and further in view of Lee (6,902,300).

6. Yu discloses the claimed invention as recited above but does not teach the protruding device having the shape of a cone. Lee discloses a protruding device having the shape of a cone. It would have been obvious to one ordinary skill in the art the time the invention was made to substitute the protruding member of Yu for the protruding device of Lee since Lee discloses that a cone shaped protruding member is purposeful for providing a resilient means for holding up the diffuser of a backlit display.

Allowable Subject Matter

7. Claims 1-3,6,12-18 are allowed.

8. Claims 24-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2875

9. The following is a statement of reasons for the indication of allowable subject matter: The reasons can be found in the previous office action.

Conclusion

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
